Tokio Marine HCC is the marketing name used to describe the affiliated companies under the common ownership of HCC Insurance Holdings, Inc., a Delaware-incorporated insurance holding company. Headquartered in Houston, Texas, Tokio Marine HCC is a leading specialty insurance group with offices in the United States, the United Kingdom and Continental Europe.

Introducing Our Cyber Protection Services

It's simple to set up and use.

Tokio Marine HCC – Cyber & Professional Lines Group (TMHCC - CPLG) offers a Cyber insurance policy that does more than protect you on paper. It gives you access to tools and services that allow you to confidently and securely manage your data and network. With us, you are more than insured, you are prepared.

System and Data Control Readiness

Threat Prevention Partnerships

We partner with our insureds to bring value beyond insurance. For example, we have negotiated preferred rates with cyber threat prevention vendors to give our policyholders access to leading-edge cybersecurity tools. We also provide policy discounts for implementing tighter security controls.

Cyber Risk Vulnerability Report

Once you bind with us, we will provide a full comprehensive vulnerability report identifying your network weaknesses and what you can do to remedy any potential security gaps.

Phishing Test

We run phishing tests to assess your internal and external threats. We'll run a phishing simulation to test your incident response plan and check on employee awareness. If there are any weaknesses, we can help you devise a plan to minimize your exposure to phishing threats.

Tabletop Testing*

We test your company's ability to respond to a cyber security incident. The tabletop exercise is designed to simulate a cyber incident so you know what happens and what must be done to protect your company from future threats.

*For qualifying insureds

Cyber Services

Breach Control

When it comes to providing exceptional service and rapid, expert breach response, TMHCC - CPLG's in-house claims team gives careful consideration to the needs of each insured. You also have continuous support to control and manage your network.

Bind your policy with us and experience what it is like to be a TMHCC - CPLG policyholder.

Monthly Network Scan

Alleviate and fix security vulnerabilities. Through a non-intrusive scan, we assess your internet-facing systems and applications for common vulnerabilities, so you can fix any identified issues. Once you become a policyholder, we continue to monitor monthly to ensure your network remains in good health. If there are any issues, we'll be sure you know about it.

Cyber Expert Help

You can speak with a Cyber Security expert to talk through legal privacy matters, best practices, vulnerability scans, phishing simulations, trainings, and guides. Need an incident response plan? We've got one for you. Need to focus on ransomware protection? We can help. Go on, ask the experts.

Knowledge Center Portal

A comprehensive database full of sample data security policies, procedures and agreements, incident response planning materials, risk assessment tools, vendor management resources, step-by-step compliance guidance, and more.

Visit tmhcccybernet.com to learn more.

Claims Specialists

Our goal is to get you back up and running by reaching a successful resolution. How do we do it? Simple: we manage and handle your claim so you can focus on your customers. We know criminals strike anytime and anywhere, which is why our claims team is there for you 24/7 in the event of a cyber attack.

Dark Web Security Scans

Often times hackers sell access to a breached network before they execute an attack. We know the places to look to get ahead of a breach. Dark web scans can provide you with an early warning that your domain information has been accessed or breached.
