

Tokio Marine HCC - Cyber and Professional Lines Group Program with OneIT, Datto and Duo

A complete cyber-security strategy must not only focus on defending against ransomware attacks but also on rapid and effective remediation when a breach occurs.

Tokio Marine HCC - Cyber and Professional Lines Group worked with IT Managed Service Provider (MSP), OneIT, to highlight the need for two equally critical elements in a policyholder's ransomware readiness strategy: multi-factor authentication and offsite data storage and recovery.

At Tokio Marine HCC, we are focused on helping your policyholders find strategies that will reduce ransomware damages and business disruption.

We're serious about our commitment to protecting businesses from ransomware.

We negotiated preferred rates with OneIT to offer our policyholders multi-factor authentication using **Cisco's Duo Security** and disaster-recovery and business continuity technology using **Datto**, the leading global provider of cloud-based software and technology solutions. Policyholders that implement multi-factor authentication and a cloud backup technology service will also receive a discount on their policy.
