Tokio Marine HCC is the marketing name used to describe the affiliated companies under the common ownership of HCC Insurance Holdings, Inc., a Delaware-incorporated insurance holding company. Headquartered in Houston, Texas, Tokio Marine HCC is a leading specialty insurance group with offices in the United States, the United Kingdom and Continental Europe.

# Introducing Our Cyber Protection Services

## It's simple to set up and use.

Tokio Marine HCC – Cyber & Professional Lines Group (TMHCC - CPLG) offers a Cyber insurance policy that does more than protect you on paper. It gives you access to tools and services that allow you to confidently and securely manage your data and network. With us, you are more than insured, you are prepared.

## System and Data Control Readiness

### Threat Prevention Partnerships

We partner with our insureds to bring value beyond insurance. For example, we have negotiated preferred rates with cyber threat prevention vendors to give our policyholders access to leading-edge cybersecurity tools. We also provide policy discounts for implementing tighter security controls.

Click the icons below to get more information about our partner solutions and preferred rates.

### Cyber Risk Report

Once you bind with us, we will provide a full comprehensive risk report identifying your network weaknesses and what you can do to remedy any potential security gaps.

### Phishing Simulations

Phishing simulations can test your incident response plan and employee awareness. You'll have access to set-up your own simulations to minimize exposure and phishing threats.

# Cyber Services

## Breach Control

When it comes to providing exceptional service and rapid, expert breach response, TMHCC - CPLG's in-house claims team gives careful consideration to the needs of each insured. You also have continuous support to control and manage your network.

Bind your policy with us and experience what it is like to be a TMHCC - CPLG policyholder.

### Continuous Exposure Monitoring

Alleviate and fix security vulnerabilities. Through a non-intrusive scan, we assess your internet-facing systems and applications for common vulnerabilities, so you can fix any identified issues. Once you become a policyholder, we continue to monitor monthly to ensure your network remains in good health. If there are any issues, we'll be sure you know about it.

### Access to Cyber Security Experts

You can speak with a Cyber Security expert to talk through legal privacy matters, best practices, vulnerability scans, phishing simulations, trainings, and guides. Need an incident response plan? We've got one for you. Need to focus on ransomware protection? We can help. Go on, ask the experts.

### Claims Specialists

Our goal is to get you back up and running by reaching a successful resolution. How do we do it? Simple: we manage and handle your claim so you can focus on your customers. We know criminals strike anytime and anywhere, which is why our claims team is there for you 24/7 in the event of a cyber attack.

### Dark Web Security Scans

Often times hackers sell access to a breached network before they execute an attack. We know the places to look to get ahead of a breach. Dark web scans can provide you with an early warning that your domain information has been accessed or breached.
