Kidnap and Ransom

The Protection You Need for What Matters Most

Kidnap and Ransom Insurance from Tokio Marine HCC – Specialty Group

The threat of kidnaping and extortion has dramatically increased in the U.S. and abroad. Incidents have occurred with alarming frequency and are not confined to the usual hotspots. In today's world, not just companies or families with overseas travel are at risk. Domestic incidents of threats, cyber extortions and workplace violence are on the rise, making this a truly worldwide problem.

Tokio Marine HCC – Specialty Group’s kidnap and ransom insurance coverage addresses the concerns of organizations whose employees and corporate assets are at risk, as well as high profile families in the U.S. and abroad. Standard perils include kidnap and ransom, extortion and detention. Our policy wording is customarily written on an unrestricted worldwide basis and is tailored to meet the individual needs of each company and family.

Frequently Asked Questions*

What happens if the victim is kidnapped and the demand is made against the family, not the employer?

The policy will respond regardless of whether the ransom demand is made to the employer or to the family of the covered victim.

Does the victim need to be traveling on company business in order for the policy to respond?

The policy responds on a worldwide basis, regardless of whether covered persons are traveling on business or pleasure.

What happens if a covered incident happens at night or on a weekend?

Tokio Marine HCC – Specialty Group policyholders are provided with 24/7 telephone hotline access to Unity Resources Group whose network of highly trained professionals stand ready to assist on a worldwide basis.

Are relatives and guests covered?

Although Tokio Marine HCC – Specialty Group policies can be individually tailored, most policies covering a policyholder's employees also extend coverage to those employees' relatives and guests (as defined in the policy).

How many events are covered per policy term?

Several events may be covered under the same policy term as long as the policy aggregate limit is not exhausted. If the policy purchased has no aggregate, the only limitation is the limit per event. That means that policy limits apply to each incident, regardless of how many persons are kidnapped in connection with one event.

Does the policy pay on a policyholder's behalf or is payment made on a reimbursement basis?

The coverage will reimburse the policyholder for claims made in the case of a covered incident. The policyholder will also be reimbursed for any reasonable expenses, including interest charges incurred in connection with a loan to pay a ransom, as well as other critical related expenses.

In addition, the crisis response fees and expenses of Unity Resources Group in connection with covered incidents are paid directly by Tokio Marine HCC – Specialty Group; and, unless the policy is otherwise amended, the policy provides unlimited coverage over and above basic policy limits for these expenses.

Does Tokio Marine HCC – Specialty Group offer coverage on an excess follow-form basis?

Yes, Tokio Marine HCC – Specialty Group can offer its full US\$50 million capacity on an excess follow-form basis. This approach is particularly useful for brokers looking to place extremely large limits in excess of any one carriers' capacity.

How long has Tokio Marine HCC – Specialty Group been writing this coverage and what is the number of dedicated staff working on this specialty line of business?

Tokio Marine HCC – Specialty Group has been specializing in this line of business since 1980 and has a dedicated staff of seven underwriters for the kidnap and ransom, extortion and detention product line.
