No additional premium is charged when new locations are opened due to organic growth during the policy period

Full policy limits for product extortion available

Delivering effective insurance solutions

No policy issuance fee

Efficient in-house claims handling

Trade name coverage built into the base form

Foodborne illness causes devastating losses to the restaurant industry every year. Our coverage exists to protect and compensate a restaurant for first party financial losses resulting from contamination of food products, or the negative publicity stemming from media reporting surrounding the contamination.

Coverages

Following a covered, accidental contamination, malicious tampering (including product extortion), supplier contamination, or adverse publicity the policy will respond to the first party financial losses related to the incident. Coverage is available to protect revenues at risk for single restaurant locations, small or medium sized groups, as well as franchise association programs (with 1,000+ locations on a single policy). Coverage can also focus on protection to corporately owned major national brands with gross revenues often exceeding \$1,000,000,000.

Our Claims Team

Our dedicated in-house claims team provides unmatched claims service to our Restaurant Recovery policyholders. Our team of claims attorneys have decades of experience in the insurance industry, and are all accessible to our Insureds directly, whether or not a covered incident has occurred.

Our Expertise

TAG (The Acheson Group) Crisis Consultants

Restaurant Recovery insurance policies include the added benefit of access to 24 hours per day, 365 days per year crisis response services. Crisis response consultants, The Acheson Group, LLC (TAG) are available to the Insured 24 hours through the crisis hotline. TAG responds to foodborne illness and contamination issues and acts as a provider of consulting services in the areas of food safety, training, quality assurance, outbreak alerts, and crisis assistance. TAG works on behalf of the Insured, not the insurance company, to provide crisis consulting in the event of a restaurant recovery incident and/or pre-incident consulting.
