

Intellectual Property Insurance

Intellectual Property (IP) is strategic at a time when innovation is at the heart of business growth.

With IP-related litigation on the rise, insurance as a risk management tool has become vital to any business designing, manufacturing, selling, providing or distributing goods or services.

For many companies, intangible assets represent a major part of their value. These can include IP rights such as:

- copyrights;
- designs;
- patents;
- trademarks;
- trade secrets;
- other IP rights (e.g., plant varieties or topographies of semiconductor products).

At Tokio Marine HCC, we design Intellectual Property Insurance (IPI) solutions that protect your enterprise from the substantial financial losses that can arise from IP-related disputes.

Coverages can include:

- Infringement Liability;
- Contractual Liability;
- Enforcement;
- IP Rights Protection;
- Contractual Disputes.

With a growing number of IP-related cases, companies who do not insure their IP are at risk of significant financial loss.
