

Cyber Act & Third Party Infrastructure Failure Extension for Events

Product overview

Tokio Marine HCC (TMHCC) – Specialty Group, a member of the Tokio Marine HCC group of companies, has launched a new combined extension to its event cancellation product for malicious cyber acts and third party infrastructure computer system failure.

These extensions are available through our Lloyd's syndicate and HCC International Insurance Company PLC.

What we cover

- Cancellation, abandonment, curtailment, interruption, postponement, or relocation of the insured event resulting from:
 - Unauthorised, malicious or criminal cyber acts involving access to, use of or operation of any computer system(s) and/or
 - Systemic failure of computer systems of third party infrastructure providers such as telecommunications, internet, satellite, electricity, gas, water or other utility suppliers
- Operative time up to 7, 14 or 30 days prior to and during the event
- Up to US\$10 million any one risk

Why is our endorsement different?

We do not require a cyber proposal form or questionnaire to be filled in to access coverage.

We will complete a free post-bind cyber scan of the insured's website to identify potential vulnerabilities, infiltrations and/or attacks. Following this, we offer advice on remedial steps to combat any issues uncovered.

We also provide 24-hour access to an incident coordinator and an IT response team.

Target market

Our combined cyber act & third party infrastructure failure extension is only available when purchased with an event cancellation policy, via an endorsement.

We offer insurance solutions for the sports, business, promotional and entertainment sectors. We are the peace of mind and financial security behind everything from global sporting events and international exhibitions, conferences and tradeshow, to touring artists and theatrical productions.
