# Tokio Marine HCC 360+ TARGET TRADES

TOKIOMARINE  
HCC

[tmhcc.com](http://tmhcc.com)

## **Why we have made this document**

Miscellaneous Professional Indemnity (PI), by its very nature, is difficult to define, so we've simplified things.

Rather than categorise 'miscellaneous' or 'emerging' PI business, we have created this interactive document called 360+ target trades (because that's how many professions we insure) to make it simple for our brokers to access a comprehensive list of the professional activities performed by hundreds of businesses across a range of sectors.

So, if you're looking to insure the instance of when a professional service is offered and relied upon by the client or end-user, this is the document for you.

## **How to use it**

Start by selecting or searching a Sector, Trade or Business Description, this will allow you to view the full spectrum of these 360+ professional activities, and to see which trade bodies and professional bodies representing the firms carrying out the work.

The data will also link to the appropriate Tokio Marine HCC (TMHCC) product page on our website where you will find our PI wordings, proposal forms, claims examples and other useful information including TMHCC training webinars.
