

Harassment Training Available

With the increase in federal and state laws, employers are being pushed to provide sexual harassment training to their employees. The U.S. Equal Employment Opportunity Commission (EEOC) issued guidelines representing the urgency of employers to regularly provide harassment prevention training to all their employees, managers, and supervisors.

How can HR Pilot™ help?

Through HR Pilot™, Tokio Marine HCC's Employment Practices Liability (EPL) Insurance makes it easier for policyholders to provide their employees with the necessary harassment prevention training. HR Pilot™ offers sexual harassment prevention training online that meets or exceeds state requirements. These programs are designed to help employers provide employees, managers, and supervisors with the training needed to understand their rights and responsibilities.

Get ahead of state requirements and provide training today.
